If there is one sector in society that should be cultivating deep thought in itself and others, it is academia. Yet the corporatization of the contemporary university has sped up the clock, demanding increased speed and efficiency from faculty regardless of the consequences for education and scholarship.

In The Slow Professor, Maggie Berg and Barbara K. Seeber discuss how adopting the principles of the Slow movement in academic life can counter this erosion of humanistic education.

“The Slow Professor is a must-read for anyone in academia concerned about the frantic pace of contemporary university life.” ~Amazon Book Review
